Sprint 10 update

Accomplishments

- **First commit to Eclipse repository**
- **Port to windows now complete – uses Gmake now.**
- **Support for rtbound and rtunbound messages**
- **Integrate the CPP properties profile**
- **Started using Tuleap for the creation of user stories**

Sprint 11 planning

- **Set up nightly and Gerrit trigger builds on Eclipse build machine**
- **Agree on repository layout and modify as needed**
- **Move sample and test models to the repository**
- **Add menu to "generate as top"**
