1.1.1 Source Control Management

ID: XXX

Component: MOSKitt4ME
Service name: Source Control Management
Domain: Open Source
Partner: UPV

Actions / Dates

Date	Action
14/05/2012	MOSKitt4ME version 1.0 uploaded
21/05/2012	MOSKitt4ME version 2.0 uploaded
31/10/2012	Screen casts uploaded

Description:
- Version 1.0
    - This version contains the MOSKitt4ME plugin which contains two folders, features and plugins, which need to be installed in the MOSKitt installation.
    - MOSKitt4ME1.0.zip (name of component, full number of version including colon to separate, then extension .zip)
    - No documentation of the version is included.
    - No text of the license is included
- Version 2.0
    - This version contains the MOSKitt4ME plugin which contains two folders, features and plugins, which need to be installed in the MOSKitt installation.
    - This version includes:
        - An update of the Activiti Engine version used.
        - The implementation of new features for the Product Explorer
        - Some bugs are solved (e.g., an exception that used to occur when deleting a project).
    - MOSKitt4ME2.0.zip (name of component, full number of version including colon to separate, then extension .zip)
    - No documentation of the version is included.
    - No text of the license is included
- Screen casts:
    - These videos are demos explaining how to use the MOSKitt4ME. There are three videos which describe:
        - How to design methods in MOSKitt4ME
        - How to generate CASE tools from a method description
        - How to work with the generated CASE tool.

Conclusions:
- The two versions of the MOSKitt4ME component have been uploaded as .zip files since this is the format in which these plugins are usually released. This way it is easy to extract their content and to place it in the proper place within the MOSKitt installation.
