

1.2 Catalogue

ID: XXX

Component: MOSKitt4ME

Service name: Catalogue

Domain: Open Source

Partner: UPV

Actions / Dates

Date	Action
15/05/2012	UPV detailed 8 Catalogue features

Description:

The categories we think are important are the following:

- Year of first version: 2012
- Current version: 1.1.0
- Contributors: PROS-UPV
- Platform: Windows
- Language in which it is written: Java
- License: EPL
- Functionality: CASE tool generator, Project manager
- Dependences: Eclipse Modeling Tool 3.5.0, Graphity 0.7.1

Conclusions:

- Year of first version: It allows understanding the technological context in which the component was initially delivered.
- Current version: provides hints about the maturity of the component.
- Contributors: It provides information about the amount of teams participating in the project.
- Platform: It provides information about the operating system in which the component can be executed.
- Language in which it is written: It is important for compatibility purposes with other component as well as for future contributions by external partners.
- License: To avoid legal problems when using/exploiting the component
- Functionality: To better understand the purpose of the component
- Dependences: To avoid problems when the component is being installed for its use.
