2.1 Change Control Board

ID: XXX

Component: MOSKitt4ME
Service name: Change Control Board
Domain: Open Source
Partner: UPV

Actions / Dates

Date	Action
01/01/2010 Date of specific action	Moment when any member of your company joined the CCB. Any relevant action you made in the CCB, such as a decision in an important meeting

Description:

List of members of the CCB:

- Vicente Pelechano Ferragud

- Manoli Albert Albiol

- Victoria Torres Bosch

What was done in the CCB:

- The use of BPMN 2.0 as the modelling language and engine tool to define and execute method processes was approved.
- Components not developed for Eclipse will be also integrated into the generated CASE tool.

Conclusions:
- Since OPEES is a consortium of many partners, it is extremely important to have a CCB where decisions can be taken by the agreement of all partners.
- Every partner will benefit from this CCB since this provides guides and constraints about how to implement or provide some components in order to be easily used by external partners.
