

Eclipse Project Log

Section 1 (Committers)

This is a list of the dev.eclipse.org unix login names for each of the Committers, past and present, whose contribution is still active in the repository.

Click [here](#) for the list of committers.

Section 2 (Contributors)

A list of all the non-Committers whose contribution is still active in the repository. The columns for this section are:

- component (CVS directory)
- bug #
- contributor's name
- contribution size
- committer who committed the contribution
- description

Click [here](#) for the list of contributors.

Section 3 (Third Party Software)

A list of the non-Eclipse third party software included in the Project. The columns for this section are:

- name including version
- IPzilla # of entry providing legal clearance for inclusion
- directory location or jar file
- license name and version (including any licenses related to embedded third party software)
- usage (e.g. modified/unmodified, source, object, derivative work, entire package or which subset)

Click [here](#) for the list of third party software used in the Eclipse project.
