

GEF Release Review 3.4

Anthony Hunter IBM Rational Software, Ottawa

GEF - Ganymede Release Review Talking Points

- Noteworthy new features.
 - Redesigned UI for the GEF Palette.
 - No API changes, modernized new palette for free.
 - New Component Zest.
 - Zest: The Eclipse Visualization Toolkit moved into GEF.
 - Componentized GEF
 - Now possible to download Draw2D as a separate download.
- No API changes from GEF 3.3.
- No End of life issues.
- No IP clearance and license issues.

Features and Non-Code Aspects

Features

- Redesigned UI for the GEF Palette
 - No API changes, modernized new palette for free.
- New Component Zest
 - Zest: The Eclipse Visualization Toolkit moved into GEF.
- **Componentized GEF**
 - Now possible to download Draw2D as a separate download.
- Non-Code Aspects
 - Migrated GEF releng and build to the common modeling build tools.
 - Cool features such as new download pages and release notes.

APIs

- No API removal or deprecation in GEF 3.4.
 - Version increment from 3.3 to 3.4.
- GEF continues to have:
 - No "provisional" APIs.
 - All non-API code in "internal" packages.
 - No 'discouraged access' warnings (internal usage).
 - Complete JavaDoc.
- A handful of new methods added in 3.4
 - As requested during defect fixing.

Architectural Issues, Usability, End-of-Life

- Architectural Issues
 - Core architecture is stable; no changes here.
- Usability
 - Diagram surface completely supports keyboard accessibility.
- End-of-Life Issues
 - None

Bugzilla

- New bugs reported since 3.3 140 (2 blocker or critical)
- Bugs fixed in this release 68 (2 blocker or critical)
- Existing P1s and P2s 0
- Bugs outstanding 304
- Enhancement requests outstanding 110

Standards and UI Usability

Standards

- GEF doesn't follow any specific standard per se; N/A
- Mimic *implicit* standards by other graphical applications
 - Examples
 - Rulers similar to common word processor applications
 - Rich-text rendering behaviour modeled from popular browsers

Ul Usability

Follow OS and Eclipse platform standards, where applicable

Schedule

- Followed the Ganymede release schedule as a 1+ component:
 - http://wiki.eclipse.org/index.php/Ganymede_Simultaneous_Release

Community

- GEF continues to be highly popular!
- De facto framework for graphical-editing in Eclipse
- GEF is often among the Top 10 Downloads at eclipse.org
- Newsgroup is very active
 - Significant number of answers coming from non-committers
- **Community contributions**
 - Bugzillas with patches from the community given priority.

IP Issues

- No IP Issues.
- About files and license files are complete and correct.
- Project log complete and up to date.

http://www.eclipse.org/gef/team/gef-log.csv

Project Plan

GEF 3.5 plan has not been started.

Thank You
